Aging And The Life Course

Unprecedented changes are occurring worldwide as fertility and mortality rates decline in most countries and as populations age. These changes affect individuals, families, governments, and private-sector organizations as they seek to answer questions related to health care, housing, social security, work and retirement, caregiving, and the burden of disease and disability.

Rejuvenation is distinct from life extension. Life extension strategies often study the causes of aging and try to oppose those causes in order to slow aging. Rejuvenation is the reversal of aging and thus requires a different strategy, namely repair of the damage that is associated with aging or replacement of damaged tissue with new tissue ...
