Here are two Gizmos released today, that would be really fun and useful before FCATs! Click the links. Unit Conversions learn unit analysis, metric only or metric/customary too.. Digestive System you put the system together, learn functions, turn up the volume too!

New Gizmos! Digestive System & Unit Analysis ...

The Digestive System Gizmo provides a unique opportunity to apply engineering principles to a human organ system. In this Gizmo, students can assemble models of the digestive system from organs like the mouth, stomach, and colon. Models can be enhanced by adding accessory organs such as the pancreas which aid in chemical digestion. Students can then pass food through their system and evaluate its effectiveness in absorbing nutrients.
