Community services have played a significant role in supporting the psychosocial health and well-being of vulnerable populations during the SARS-CoV-2 (COVID-19) pandemic. To meet increased community needs, organisations were required to rapidly modify service provision, often using remote delivery systems. This in-depth study, undertaken early in the pandemic, explored staff and clients ...

Foreign Direct Investment and the Environment

Prior to 1976, international waters began at just 12 miles from shore and were fished by unregulated foreign fleets. The MSA extended U.S. jurisdiction to 200 nautical miles and established eight regional fishery management councils with representation from the coastal states and fishery stakeholders. The councils develop fishery management plans that comply with the MSA's conservation and ...

Foreign aid has been critical to the operation of the country. Large amounts of iron ore make up about 40 percent of the country's exports. Fishing off the coast has great potential but has been exploited by international fishing vessels; thus Mauritania is in danger of losing revenues and a declining resource base if protection is not secured.
