to improve, but it's simple enough to use. Downloads are available in dozens of formats, including EPUB, MOBI, and PDF, and each story has a Flesch-Kincaid score to show how easy or difficult it is to read.

First Grade Bee Insect

Bumblebees are considered to be beneficial insects because they pollinate crops and plants. They are very social bees and live in large "families". Unlike honeybees, bumblebees can sting more than once because their stingers are smooth and do not get caught in the skin when they fly away. Size: 1" Shape: Oval, bee shaped; Color: Black with yellow stripes
