Table of Contents: Handbook of symbolic interactionism

Symbolic interactionism had its most significant impact on sociology between 1950 and 1985. In challenging functionalism, the dominant sociological paradigm of the 1950s, interactionists urged their colleagues to examine how people “do social life”—that is, how they construct and negotiate meanings, order, and identities in their everyday interactions.

The aim of this study is to explain symbolic interaction theory. Symbolic interaction is one of the several theories in the social sciences. According to this theory, people live both in the natural and the symbolic environment. Symbolic interaction is a process that is enlivened the reciprocal meaning and values by aid of the symbols in the mind.
