This geometry lesson hardly feels like math practice when students are immersed in the quadrilateral questions! Students think they are playing an entertaining and challenging math game, while teachers see the benefits of interactive math practice that they can use to monitor their students' progress in recognizing quadrilaterals.

Edit #3: Geometry portion - Area, I had to look up the formulas for the area of parallelograms and trapezoids because the book didn't give them and asked for them in a few of the practice questions. I'm honestly not surprised at this point with the amount of missing information in this book, just very disappointed that this keeps happening.
