Read Book Law Of Sines Answers

In trigonometry, the law of sines, sine law, sine formula, or sine rule is an equation relating the lengths of the sides of a triangle (any shape) to the sines of its angles. According to the law, $\frac{a}{\sin A} = \frac{b}{\sin B} = \frac{c}{\sin C}$, where a , b , and c are the lengths of the sides of a triangle, and A , B , and C are the opposite angles (see the figure to the right), while d is the
