Magneto Tips Forward: this document is intended as a simple guide containing tips for the servicing and maintenance of Lucas and BTH magnetos - both makes being basically of the same design. Contrary to popular belief, Lucas and BTH made quality instruments and most mags fail either through not having been serv iced properly, or though age alone.

### Magneto Tips

The Universal EasyCap can be mounted in a number of places in the Lucas SR1 rotating-magnet magneto. In this example, it will be mounted on the screw that can also serve as the cut-out terminal. The circuit board is cut and drilled as shown in the first two photos. On the capacitor side of the board, the edge shown in the first photo should be ...

### Lucas RS1 Magneto Stripdown - YouTube

Have used an SR1 on 350 and 500 engines. It is my Lucas mag of choice (the magnet rotates and not the delicate wire-wound armature..why build them like that?)- easy to set and most will have an option for a handlebar-mounted kill switch They seem to provide a good spark, with easy starting. Parts are readily available. The only thing is to make a strap, the best version of which is a custom ...

Up for auction is a Lucas magneto. Type MK1-3 for rebuild or spares, probably too good for spares. Direction arrow indicates anti-clockwise rotation looking at the drive end. It is in good condition externally. No severe corrosion. The points look to be in good complete order. HT lead feed-out tower is in nice condition with good internal thread.
