SAP Plant Maintenance (SAP PM) application component provides an organization with a tool for all maintenance activities to be performed. All the activities that are performed under maintenance are interconnected and hence this module is closely integrated with other modules - Production Planning, Material Management, and Sales and Distribution.

SAP PM - Quick Guide

This is very different from a web app in a mobile browser! That's what it's all about: we want to make mobile working easier for SAP customers and their employees. We have kept the technical conditions as simple as possible, such as the back-end connection and the use of SAP Launchpad. An end user will ideally not even notice that.
