Offsetting is the primary way that most traders close a position. Offsetting is simply a method of reversing your original transaction to exit the trade. You can always sell an option that you previously bought, or buy an option that you previously sold, at any time before the end of the last trading day.

We were given a welder that has a big 240 volt plug, but our home doesn't have any 240V outlets already wired. What to do? Wire your own! Turns out the plug we had is NEMA 6-50. You can probably figure out what yours is from a chart. If it's close, measure the lengths of the prongs and compare to what is listed.
