Aircraft engineering is a four year degree course in engineering. The branch that you choose is normally called aerospace engineering. On the other hand Aircraft Maintenance Engineering or AME is a three year course where upon completion you get a license rather a degree. So you have to decide which one you are going to choose.

Aircraft Maintenance Engineering - Salary, Qualification ...

The science of aerodynamics deals with the motion of air and the forces acting on bodies moving relative to the air. When you study aerodynamics, you are learning about why and how an airplane flies. Although aerodynamics is a complex subject, exploring the fundamental principles which govern flight can be an exciting and rewarding experience.

Basics Of AirCraft - Air Craft Engineering

Maths is a must-have subject whatever type of engineering you want to study; but there are certain other essentials or preferred subjects depending on the course you apply to. The following requirements also apply to degrees in aeronautical engineering , chemical engineering , civil engineering and mechanical engineering .
