High knees are a great endurance exercise to warm up the body or add to a circuit to elevate your heart rate. Start standing with your legs hip-distance apart and as you exhale lift one leg up into a 90-degree angle towards your chest, balancing on one leg then transfer your weight to the other side, and switch. Repeat this motion back and forth ...

Here are some guidelines for getting the best quality prints from your photos: Start with the right size and shape. To get the best resolution when printing, you need to signal to your printer how many pixels per inch (PPI) you want it to print. If you send too few pixels to the printer it will just make pixels up in an effort to fill the page.
