How Would You Move Mount

If it were just a few inches or meters, I think the best approach would be to cut the mount by its base and make a huge crane to lift it, but if you need to move it a longer distance then maybe some kind of orbiting crane will be needed to get over other mountains, oceans, etc and still you need to cut through its base.

Microsoft Interview Question: how would you move mount ...

How Would You Move Mount Fuji? was published in 2004 so it may not be as relevant now as it was then for someone trying to get an inside scoop on Microsoft's interview process. I would imagine it would still be helpful, though, for someone interviewing at Microsoft (or Google or a similar company) to understand how the interview process might go.
