Mutant Beasts brings back the popular Mutant Creatures mod to modern Minecraft, after four years without an update. Note that I am not the original creator; all credits for the content made goes to shcott21/thehippomaster21. I have contacted the author privately to ask for permission to create this port, but the author has yet to respond, meaning I don't have official permission.

The Lightning Spirit is a mob from the legendary beasts mod. It has 162.5 hearts and is maybe the hardest legendary beast to fight. It spawns on an icy cloud. His real name is Xoloti. If you try to fight him with a weapon or a tool, it will do no damage no matter how many times you hit him. He only gets damaged by hitting him with your hands. You can use explosions as well. Two easy ways to kill ...
