Mikrotik Groove Ap - Template Mikrotik

This MikroTik device should be installed and operated no closer than 20 centimeters from your body, occupational user or the general public. Configuration The AP model Groove (A) is configured as a wireless access point, with the ethernet port configured as a DHCP client, for connecting to your ISP router or switch.

Groove-series - User manuals - MikroTik Documentation

The MikroTik Groove is a fantastic product to use as a marine WiFi booster. However, it is not the simplest device to configure. This guide covers setting up and configuring the Groove for initial use, and some additional recommendations. Other articles I've written that cover more details on configuration and usage:
