This is a valuable addition to the ...

Public Health and Aging: Maximizing Function and Well ...

Global health faces its largest challenge to date—a rapidly aging population with increasingly complex health problems. The National Institutes of Health (NIH) predict that the percentage of adults aged 65 and older will double from 8.5% to 17% by 2050. Existing healthcare systems will be stretched to support such a large population. A simple way to improve health outcomes is to encourage ...

Public Health And Aging

How you use your anti-aging skin care products affects your results. To help patients get the best results from these products, dermatologists offer these tips. Start with one product. Using several anti-aging products at the same time can irritate your skin. When you irritate your skin, signs of aging become more noticeable.
